This was a campaign ad paid for by Devon Diane Anderson where she altered her behavior in response to the ethics complaint that she learned about 4-days earlier.

The words "re-elect" and "keep" are synonymous and this ad was equally illegal as the first one, but it is proof that Anderson knew she had committed a criminal offense by illegally campaigning.

The previous campaign ad that Devon Diane Anderson paid for is completely gone. If Anderson was not criminally violating the ethic laws, then why would she keep changing her campaign ads?

The answer is because Anderson has no honor and she believes that the laws do not apply to her. Anderson is corrupt and her blatant violation of the ethic laws are evidence that she is unfit for public office.
